Career Objective

To pursue a challenging career and be a part of a professional environment that gives a scope to enhance my knowledge and utilize my skills in the computing field with utter determination and dedication.

Skills

Languages	Flutter, Dart, C, HTML, CSS, Python, JavaScript, Bash
Database	Firebase, MySQL
Version Control	Git, GitHub Action
IDE / Tools	Eclipse, IntelliJ, Visual Studio 12, Apache NetBeans, Code Block, Cursor
Deployment Tool	Jenkins, Docker, Kubernetes
OS	Solaris, Linux
Testing	Manual Testing

Professional Experience

Associate System Administrator

Softenger India Pvt. Ltd. (Client: Oracle Pvt. Ltd.) | Pune

August 2024 – Present

- Managed Oracle Linux and Solaris systems ensuring high availability and performance.
- Performed system administration, troubleshooting, and routine maintenance in enterprise environments.
- Developed automation scripts for tasks such as auto-generating reports, reducing manual workload.
- Resolved critical system issues with **zero downtime**, ensuring uninterrupted production operations.
- Monitored system health, applied patches, and optimized performance for improved stability.

Internship

Persistent Martian – Summer Internship Program 2023

Duration: 7 weeks

- Completed structured training in **Linux OS, Java, Data Structures, and DBMS**.
- Gained hands-on experience with foundational programming concepts and system operations.

Inthink Technology – Internship 2024

Duration: 6 months

Role: Team Lead & Front-End Developer

- Led a team in developing a **safety and emergency alert mobile application** for women and girls.
- Implemented core features including **real-time location tracking, SOS alerts, and emergency contact dialing**.
- Ensured strong user privacy through secure data handling and controlled access permissions.

- Designed a **responsive, intuitive UI** enabling quick access during emergency situations.
Technologies Used: Dart, Flutter, Firebase (Realtime Database & Notifications), HTML, CSS, JavaScript.

Project

Project: Pet Buddy

Type: Final Year Project

Role: Team Lead & Front-End Developer

- Developed a **cross-platform mobile application** for pet daycare, adoption, and rescue services.
- Implemented features such as pet registration, daycare appointment scheduling, and adoption exploration.
- Integrated **Firebase Authentication** for secure user login and **Firestore** for real-time data management.
- Designed a **user-friendly and intuitive UI** to improve overall usability and streamline pet management workflows.
- **Technologies Used:** Flutter, Dart, HTML, CSS, JavaScript, Firebase.

Project: Home Automation Using Raspberry Pi

Type: Third Year Mini Project

Role: Python Developer & Web Interface Developer

- Developed Python scripts to control Raspberry Pi GPIO pins using the RPi.GPIO library for real-time appliance automation.
- Built a responsive web-based interface enabling users to remotely control home appliances such as lights and fans over the internet.
- Implemented an IoT-driven architecture using Raspberry Pi, relay circuits, and Wi-Fi modules to ensure seamless remote operation.
- Enhanced system reliability by optimizing GPIO operations and designing a smooth, user-centric automation workflow.
- **Technologies Used:** HTML, CSS, Python, Raspberry Pi, RPi.GPIO, Relay Circuit

Project: Udyog

Type: Freelance Project

Role: Frontend & Backend Developer

- Developed a mobile application that allows business owners to **register and promote their businesses** with details such as category, type, location, and product/service brochures.
- Built an intuitive **admin panel** for reviewing, approving, and managing business listings, ensuring a smooth onboarding workflow.
- Utilized **Flutter and Firebase (Firestore, Storage, Authentication)** to deliver a secure, scalable, and seamless user experience.
- Designed a clean and responsive user interface to simplify registration and improve business visibility.
- **Project Link:** <https://bhavsarudyog.github.io/bhavsarudyog.io/index.html>
- **Technologies Used:** Flutter, Dart, HTML, CSS, JavaScript, Firebase.

Certificate

- Oracle Certified Professional – Oracle Linux 8 System Administrator.
- Oracle Certified Associate – Oracle Solaris 11 System Administrator.
- Oracle Cloud Infrastructure Foundations Certified – Oracle (2025).
- Microsoft Certified: Azure Fundamentals (AZ-900).

Education

- BTech – Walchand Institute of Technology | Solapur University | 2024 | CGPA: 8.24
- Diploma – S.E.S. Polytechnic, Solapur | MSBTE | 2017 | 82%
